 Gaye Gardner – In Memory of; HQ Secretary

Bowling Green Woman's Club congratulates Romanza Johnson for 50 years of membership
 Past Club President—District 2 Governor—
 GFWC Kentucky Past President

Nova News to Use

Susette Redwine, President-elect

One thing about this pandemic, we have all become better using our computers, laptops, or iPads! When they cooperate with us. We have learned that Zoom means more than a race car running at a high speed and that facemask can be fun to wear and not used just as a Halloween costume piece.

So, I ask you, how have your clubs done during this pandemic? Some may answer we have done absolutely nothing while others may say, we have adapted and completed a great number of projects. And then there are those that may say we are in the middle of those two. After being at the International Convention and hearing the number of projects completed and amount of money donated are spent on projects during this time period was mind blowing.

Just in Education and Libraries, Internationally, there was 35,550 projects completed; 1,764,140 volunteer hours and \$8,910,086 donated dollars. Think about this, this was during a time most of our schools were teaching virtually. Amazing and wonderful.

Now that we have somewhat gone back to “normal,” how is your club doing? I know some are just happy to SEE each other even through a mask. Some are still meeting virtually. It’s time to rejuvenate and celebrate your club. Maybe this is the year just to work on one project for the year. However, listening to your club reports so far at District Meetings, you are working just as hard as before. Maybe it’s time to review what your club does and make some changes or put things on hold for a while. Think about it. If we don’t do a project for a year, how does it impact those who receive the benefit of our work? Or does it?

And speaking of rejuvenating your club, what about your members? Do you have that person who just didn’t come back yet? That’s ok but don’t forget about her. Call her or ask someone to make sure to call her and keep her in the loop. Don’t send an email to her, call her. Your voice or the voice of another club-woman might be just what she needs. Reassure her that she is missed, and we want her to rejoin us when she is up to it.

Those are just a few ideas of what can be done and are easy to do. I miss seeing you and hope I get to see you soon! Keep reaching for the stars and dreaming big-big-big!
